

MISSION: GIVING ALL MUSICIANS
A FAST, EASY, AND ADDICTIVE WAY TO
PLAY, COLLABORATE, AND SHARE.

VISION: We see a future where music creation
and consumption is accessible and social.

PROBLEM AND SOLUTION

PROBLEM

MUSIC PRODUCTS ARE OUTDATED,
ISOLATING, EXPENSIVE, AND
HIGHLY SPECIALIZED.

SOLUTION

WE BUILD MUSIC HARDWARE AND
SOFTWARE THAT MAKES MUSIC CREATION
AND CONSUMPTION MORE ACCESSIBLE
AND SOCIAL.

THE JAMSTACK ONLINE COLLABORATION SOFTWARE WORKS HOW IT WORKS

CONTROL

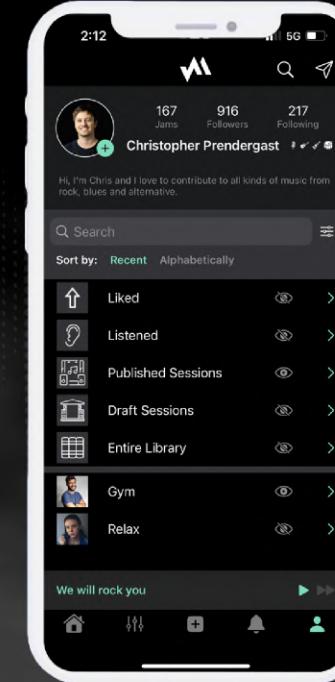

Users can control their music like never before, adjusting volume, muting and soloing individual instruments. Creates more listening enjoyment, learning opportunities, and backing track/karaoke capability.

RECORD

Record your version of a solo, something completely new, or start something from scratch to be completed by the community.

SAVE AND BROWSE

Save content to listen or work on later in playlists. View other users playlists and browse and search over 18,000 popular songs as well as community content.

HOW THEY CAN WORK TOGETHER

The software is extremely powerful and usable on its own, but with **JAMSTACK HARDWARE**, you can record directly into the port of your phone with high quality audio, instead of relying on your phone's microphone.

COMPETITION AND DIFFERENTIATION

Existing companies are steeped in tradition and nostalgia and are not optimized for **innovation** of user **experience**.

		Jamstack AMP 2	Spark
Sales (first 12 months)	TBD	Launching Q2 2022	\$80M
Battery Powered	✓	Lithium ion battery	✗
